DETAILED ACTION

1. The amendment filed February 4, 2003, has been received and entered. The text of those sections of Title 35, U.S. Code, not included in this action can be found in a prior Office action.

- 2. Claims 2 and 4 have been cancelled.
- 3. Claims 1, 3, and 5-18 are pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 3, and 5-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims are considered indefinite because applicant has not defined what times are encompassed by "an extended period of time."

Claim Rejections - 35 USC § 102

5. Claims 1, 5, and 12-14 are rejected under 35 U.S.C. 102(e) as being anticipated by US Pat. No. 6,406,897 B1 for the reasons set forth on page 3 of the previous Office action.

All of applicant's arguments regarding this ground of rejection have been fully considered but are not persuasive. Applicant argues that the reference does not teach the claimed composition because the reference teaches a linked lactoferrin, beta-glucan composition, while

Application/Control Number: 10/021,970

Art Unit: 1654

that both ingredients are present. The reference is considered to meet this limitation because it teaches a composition which would contain both ingredients.

Claim Rejections - 35 USC § 103

6. Claims 1, 5-11, 16, and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Pat. No. 6,406,897 B1 for the reasons set forth on pages 4 and 5 of the previous Office action.

Applicant argues against this rejection for the same reasons as for the 102(e) rejection based on this reference. Therefore, the response to these arguments can be found above in paragraph 5.

7. Claims 1, 3, and 5-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over US Pat. No. 5,296,464, US Pat. No. 5,783,569, and US Pat. No. 5,670,138 for the reasons set forth on page 6 of the previous Office action.

All of applicant's arguments regarding this ground of rejection have been fully considered but are not persuasive. Applicant argues that the claimed composition has unexpected results because the composition can be administered for long periods of time without the negative side effects that would be associated with the long term administration of each ingredient individually. However, it is difficult to assess potential unexpected results because the periods of time involved are unclear. It is not clear how long the individual ingredients can be administered before harmful side effects are seen and it is not clear how long applicant intend

individual components. In addition, without the claims reflecting a clear period of time, it cannot be determined if the claims would be commiserate in scope with any unexpected results.

Therefore, the claims are still considered to be obvious based on the reasons of record.

8. No claims are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
